

# Wordpress – localhost

Am studiat WordPress la nivel beginner/intermediate, localhost iar pentru a-mi expune cunostintele acumulate voi face cateva printscreen-uri de la proiectele facute.

Cursurile pe care le-am urmat se regasesc pe platforma: [www.udemy.com](https://www.udemy.com)

**Nota:** Nu voi detalia fiecare tema utilizata sau configurarea fiecarui plugin, voi incerca sa surprind esentialul.

# Personal Hobbies

Hello there!

My name is Radu and this site is about most of my hobbies that I enjoy practising and other things that I like doing.

Here is a short summary about me:

I always thought my dream is to discover the philosopher's Stone, to dive deep into the hidden knowledge of chemistry, so I could reach the right formula to complete my life. I started to work in a Romanian private company as a chemical operator, which satisfied me for a short period of time until I realized that's not what I want to do all my life.

I discovered that I got a passion for other things which fit better according to my temper. I always felt appropriate to live in a calm atmosphere, working in silence with my thoughts and spending my time in a smarter way like coding that could bring me a state of freedom. So far I studied HTML, CSS, Bootstrap, JavaScript, ReactJS, Git/GitHub, WordPress and Responsive Photoshop. I've planned to learn Node.JS and PHP in the appropriate future and I am still elated to study any other "back-end" programming languages. This short time that I was learning and applying my coding knowledge, I felt great excitement, like I was discovering a whole new world where I can feel powerful and fulfilled.
